

## **Carpooling Safety Suggestions:**

To reduce the risk of spreading COVID-19:

- Avoid Carpooling when possible.
- Individuals who carpool should remain in the same carpooling group. In the event one individual becomes sick, all members of the group should isolate until further notice.
- Individuals should sit as far apart from one another as possible (diagonal pattern).
- As weather permits, windows can be opened to improve air circulation.
- Individuals should wear masks and use hand sanitizer.
- Vehicles should be sanitized before and after each use.
- Individuals should avoid smoking or engaging in other activities which requires their mask to be removed while inside the vehicle.
